

Senior Data Consultant / Solution Architect

Data Warehouse & ETL | Analytics | Cloud (AWS) | Enterprise Architecture (TOGAF)

Delivery focused senior consultant with 14+ years' experience in Big Data, Data Management, Data Quality and Analytics, having managed successful on-time and budget delivery of projects, five through the entire SDLC and was the technical lead on four. Worked in Banking, Telecom, Defence, Media, Gaming, Education and Postal Service domains, across Public, Private and Government sectors. Experienced working in Big4 Consulting firms and managing teams of up to 20 and direct on and offshore resources.

Experienced programmer/consultant in low level to high level and scripting languages. Have an end-to-end understanding of how enterprise wide major solutions are implemented.

TOGAF 9, PMP, CSM and AWS certified. B.Tech in Computer Sc. Also a national scholarship awardee.

IT Enterprises & Clients worked for

IT Companies	Designation	Major Clients
• Shiksha Infotech, Bangalore.	Delivery Manager	• Westpac, Sydney.
• Telstra, Melbourne.	Test Lead	• Department of Defence (DoD), Melbourne.
• Anatas, Melbourne.	Senior Consultant	• Telstra, Melbourne.
• KPMG Consulting, Melbourne.	Consultant	• Sensis, Melbourne.
• Ministry of IT, India.	Consultant	• Australia Post, Melbourne.
		• British Telecom, Bangalore.

Data Analysis & Other Projects Delivered

- ★ **AWS, CDH, Analysis & Reporting** | Timely and within budget, delivery of a **Data Analysis and Reporting** project comprising a **Cloudera Multi-node Hadoop cluster** on **AWS** for **British Telecom**. Pitched the **PoC**, secured buy-in and managed the entire delivery of the Operational BI solution.
- ★ **Spark, Hadoop & Reporting** | Successful delivery of a Spark Hadoop cluster implementation with Tableau reporting incorporating multiple service lines for a marketing and analytics solution provider catering to the US restaurant industry.
- ★ **Data Warehousing** | Created Projects and Purchases Data Mart for Project and Cost performance visualization for the **DoD** on **SQL Server**.
- ★ **Data Migration** | SIT Test Manager for a massive complex data migration project for **Telstra**. Responsible for overseeing the Test process and successful migration of over a million customer details using the **ETL** tool DataStage, and Data Quality tool QualityStage. This involved both onshore and offshore teams.
- ★ **Data Integration** | Developed a Feeds processing subsystem, integrating data into a single **SQL Server** data store enabling automatic management of events, markets, etc for the games betting provider **Ladbrokes**.
- ★ **Banking** | Worked on a complex Transactions and Unsecured Lending Operations project using the **ECM** tool FileNet for **Westpac** Banking Corporation. Involved in charting Workflows, BA and Testing.

Data Analysis, Cloud Infrastructure (AWS), Solution Architecture, Design & Development

- ✓ **Cloud, Big Data, Analysis & Reporting** | Designed and implemented a Big Data Operational Business Intelligence solution involving live TnD data for a major Telco on AWS. This amongst others involved deploying multiple **CDH** and **AWS** Infrastructure components, developing data processing scripts and utilized various visualization formats for best depiction and reporting on the web. Collaborated with department leadership to identify and define metrics. Also identified data needs, structure and developed data processing scripts to support client requirements and Tableau reports on a Big Data Spark cluster.
- ✓ **Data Integration, Analysis & SQL** | Developed various DWH and DM data processing jobs for DoD and Telstra, involving Extraction from multiple disparate source silos, Inspection, Manual and Scripted Cleansing, Transforming, Loading onto target Transactional and Data Warehousing systems and generating summary and project reports with relevant suggestions.

- ✓ **Enterprise Applications** | Designed and implemented enterprise applications involving Middleware (TIBCO - EAI, BPM, Oracle - ESB, WLI, et al), Routing and Queuing systems amongst others.
- ✓ **Web Applications** | Developed the product, Designed and implemented the architecture for scalable web applications for web and mobile devices on both in-house and cloud infrastructures.
- ✓ **Application Development** | 13 years in application development. Product consultation and Sole developer of the first draft of AUTOLAY, an innovative CAD technology, developed for ADA India and used by several aircraft manufacturers around the world.
- ✓ **Concepts & Knowledge Areas** | Waterfall methodology, OOAD, Design Patterns, SOA, Web services, DWH & DM, SW Development (Eclipse), Testing & Strategy, BA and UML (Sparx EA). Familiar with DevOps (CI/CD), Containerization and Micro-Services.

Scrum, Project Management & Enterprise Architecture

- ✓ **Agile Scrum Master** | Driven the adoption and enforcement of Scrum rules, removing impediments and fostering self-organization. Enabled sprint planning, daily scrums, backlog refinements (incorporating 3C's, SMART and INVEST), story point sizing and sprint retrospectives. Managed Change in developing cross-functional development teams. Incorporated XP and Kanban practices within the Scrum framework.
- ✓ **Agile Scrum Product Manager** | Liaison with the client, refined the requirements, broke down the concepts into user stories, maintained and prioritised the product backlog, plan releases.
- ✓ **Agile PM Evangelist** | Experienced with overcoming organizational challenges in transitioning to an Agile pull system from the traditional one and developed a hybrid SDLC framework combining PMP and Agile.
- ✓ **Full SDLC** | Managed five software projects through end-to-end SDLC from requirements elicitation to solution design to development, testing and delivery.
- ✓ **Project Teams** | Resource managed up to 25 IT people, directly managing up to 30 in the telecommunications hardware industry.
- ✓ **Methodologies, Frameworks & Modelling Notations** | Certified TOGAF 9 Foundation, Project Management Professional (PMP), ITIL V3 Foundation Practitioner and an Agile Certified Scrum Master (CSM). Well versed in Program Management, Kanban, XP, Lean and Six-Sigma. Familiar with Archimate 3.0, the Zachman framework and Prince2 methodology.

Education, Certifications, Awards & Memberships

Bachelor of Technology

- **B.Tech | Indian Institute of Technology – Kanpur (IIT-K)** - 1997.
(India's prominent world-beating institute with 1% overall acceptance rate.)
 - Majoring in Computer Science & Engineering (**CSE**).
 - Minor Degree in Mathematics.

Certifications

- **TOGAF 9** | The Open Group certified Enterprise Architect (Foundation level) (No. 128072) - **2018**.
- **PMP** | PMI certified Project Management Professional (No. 1320063) - **2010**.
- **CSM** | Scrum Alliance Certified Scrum Master (No. 000455508) - **2015**.
- **AWS** | Amazon certified Solution Architect (Associate) (No. JY5MFVR2BFBE10GD) - **2018**.

Professional History

Technical Delivery Manager

Oct 18 – Present

Prama-AI, Australia.

Associated with a software company, in an architecture and techno-managerial capacity, consulting on their IT products, AWS implementations and business strategies.

- ★ Projects involved Data Integration for SME Retailers, CoreIS portal and Digital Modernization.
- ✓ Brought in Agile practices, tools and technologies like React, Jest, etc and advised on Business growth.

Engineering Manager

May 15 – Jun 17

XURMO TECHNOLOGIES, GEOSUN CONSULTING, India. (Big Data & e-commerce)

Managed and Delivered a Big Data Spark project. Analysed the Business and Managed the Project, Architecture and Technical aspects involving an e-commerce platform for textile manufacturers, wholesalers and retailers.

RESPONSIBILITIES & ACHIEVEMENTS

- ★ **Technical Project Management** | Managed the delivery of a version of Apache Spark involving Jenkins (CI/CD) and Hadoop Hive, and helped with Tableau reports for a marketing and analytics solution provider catering to the US restaurant industry. It involved multiple service lines like online purchases, POS, promotional campaigns, loyalty, etc. Managed, liaised, gathered requirements, and provided consultation on the execution of a project involving cataloguing, and facilitating the sale and purchase of textiles by manufacturers, distributors and sellers.
- ✓ **Solution Architecture & Delivery** | Decided upon technologies and implemented business processes, designed and architected the solution, application and data architecture and reporting.

Delivery Manager / Solution Architect

Nov 09 - Sept 13

SHIKSHA INFOTECH, India. (Enterprise, Big Data, Cloud & Mobile App Delivery)

As member of the senior leadership team responsible for direction, strategy, growth, relationships, team formation and building technical capabilities. Managed the end-to-end delivery of enterprise, web and mobile applications for clients across domains like Telecom, Gaming, Maintenance, Education and LifeStyle. Built PMO, Web, Mobile, Cloud and Big Data capabilities.

Client, Program & Project Management

- ✓ **Client Management** | Primary Indian PoC, acting as conduit between offshore clients and onshore design, development and testing teams. Managed relationships to senior executive management levels.
- ✓ **End-to-end Project Management** | Expectation setting, requirements gathering, creating project plan, assessing risks and constraints, determining MVP, SOW and WBS, scope, schedule, resources and cost and managing the same. Final delivery, signoff and closure and adhering to audit practices.
- ✓ **Project Governance & PMO Manager** | Generated estimates, scope control, risk and change management, triaging, EVM. Established and led the PMO, audit/QA documents and PMO templates.
- ✓ **Enterprise Roadmaps** | Created and executed the roadmap for building competencies in web and android development.
- ✓ **Agile Scrum Master** | Performed roles of a PO (Product Owner) and SM on 4 Scrum projects.

Technology, Solution Design & Architecture

- ✓ **Solution Design & Strategy** | Charted the Enterprise Mobility Management (EMM) strategies and introduced various additions to products thereby gaining traction with the client.
- ✓ **Technology** | Decided upon technologies, troubleshooted coding issues and provided technical mentoring.
- ✓ **Capability Uplift** | Built up key technology capabilities in Android, PHP, Scrum and adhered to best practices of work breakdown, estimations and development. Built up website scalability, EMM, GCM and SSO capabilities amongst others.
- ✓ **Tools & Technologies** | MS Office, MS Project, I/PaaS, Cloud (AWS stack), Hadoop stack, TIBCO suite, web technologies, LAMP stack, Eclipse, Java, PHP, Javascript, REST, JSON, SQL and third-party APIs.

Project: Test and Diagnostics Reporting platform (Hadoop), British Telecom. Role: Technical PM

- ★ **Project & Outcomes** | Delivered an on-demand, interactive web reporting system aiding top management and pursuing and proactively resolving incidents with the support team, communicating RCA and preventive action items. This involved AWS I/PaaS, CDH, Apache Pig, Hive, Sqoop, MySQL, et al.

Project: CMMS (Computerized Maintenance Management System), NetFacilities. Role: PM

- ★ **Project & Outcomes** | Delivered a CMMS system, progressively resolving pain-points of end-customers, leading to increased customer retention (~30%), customer gain rate (~3%) and improved profits (~35%).

Project: Project Mercury (Betting & Gaming Industry), Ladbrokes. Role: EAI Developer

- ★ **Project & Outcomes** | Developed a Feeds processing subsystem and SOA services as part of a content gateway for automatic management of events, markets, etc, providing a back bone for application integration using TIBCO BW. EAI Pattern Catalogue was followed during service design / implementation.

Project: Angry Alert, Time Sheet, iConnect Android Apps. Alibaba Dir, AdComPlus. Role: PM

- ★ **Project & Outcomes** | On time and under budget successful delivery of the product surpassing client expectations and specifically meeting the requirements of scalability. Also obtained buy-in for additional high-utility features gaining traction for usages like EMM, SSO.

SIT Test Manager - BSS Data Migration

Jul 08 - Jan 09

TELSTRA CORPORATION LTD, Australia (Telecommunications – Data Migration)

Managed the System & Integration Testing (SIT) of Telstra's BSS data migration process, leading a team of 12 testers.

Project Management

- ✓ **SIT** | Responsible for the planning, effort estimation, forecasting, scheduling and execution of System & Integration Testing in a controlled environment.
- ✓ **Team Leadership** | Was the PoC for the SIT process and liaised with the inter-related teams. Led and managed a team of 12 Testers. 8 in Melbourne and 4 in India.
- ✓ **Project Management** | Identified, monitored, managed and reported project issues, risks, status and deliverables.

Project: Data Migration, Telstra (8 onshore, 4 offshore).

Role: SIT Test Manager

- ★ **Project Outcomes** | Successfully migrated approximately 1.2million customer records from Amdocs to new systems of Kenan and Siebel using IBM's ETL tool DataStage (EE).

Application Integration Consultant - Program Morph

Dec 07 - Jul 08

SENSIS via ANATAS PTY LTD, Australia (EAI services)

Led the development and testing of integration components around the Oracle ESB product Aqua Logic Service Bus (ALSB).

Technology, Solution Design & Architecture

- ✓ **Operational Optimization** | Analysed, Refactored and Normalized function calls. Programmed and tested REST APIs and the integration procedures for content-based routing based on SOA principles enabling easy manageability and comprehension. Rescripted XML schemas and also used SOAPUI.

Project: Program Morph (Integration), Sensis.

Role: IT Consultant (Developer)

- ★ **Project Outcomes** | Successfully integrated 15 Sensis products to the integration fabric, incorporating web and local services using Oracle ALSB and WLI.

Consultant (BA, Data & Process Implementation and Testing)

May 04 - Nov 07

KPMG CONSULTING / BEARINGPOINT, Australia, (IT Professional Services)

As part of Asia Pacific Technology Solutions unit, engaged in IT solutions consulting and implementation across banking, defence, postal and telecom domains.

Project: Minerva DMO MRS (Mthly Reporting Sys), Dept of Defence. **Role:** Tech DW Consultant

- ★ **Project Outcomes** | Developed DataStage data warehousing and reporting jobs enabling smooth transition from the existing MRS system to the Minerva MRS system while meeting requirements.

Project: BSS Data Migration, Telstra.

Role: Technical DM Consultant

- ★ **Project Outcomes** | Developed DataStage data migration jobs to cleanse, extract, transform and load data onto the target Oracle system.

Project: TULO – Transactions and Unsecured Lending Ops, Westpac. **Role:** BA & Test Lead

- ★ **Project Outcomes** | Charted the business processes and tested the recording and maintenance of transactions and lending operations and their associated documents. FileNet was the ECM tool here.

Project: CLE & FF – Common Logging and Exception Handling, NAB (offsite). : EAI Consultant

- ★ **Project Outcomes** | Undertook training and got hands-on on the TIBCO suite (BW, GI, iProcess) in preparation for getting on board. Helped the team with best practices in implementing shared infrastructure services, enabling consolidation of common functionalities and incorporating SOA concepts.
